Q. Access to buffers
 write quick = print zero(row)

if funcⁿ is still connected
 but pass row no. - 84

row in [0, 1, 2]

if → array
 not able to access view
 again
 as not able

use array
 change in model

Q. funcⁿ in controller

function
 print zero = row

isXorZero = false
 var value = isXorZero ? 0 : 1;
 myFactory.updateBuffer(row, value)

change value
 isXorZero = 1 is

full update buffers = myFactory.buffers.
 a
 given update

Q. in factory
 updateBuffer(row, value)

this.buffers[row].value = value;
 object

① win or lose array

make fun?

reverse
col reverse
diagonal reverse

this is array of matrix index

orig. randomly } to remove
set true or false
accordingly
if we want to
click or not

we print by 0, 1, 2
no repeat on array.

0	1	2
3	4	5
6	7	8

array [0, 1, 2]
arr [3, 4, 5]

we get button index

2nd exercise

calculator - array

Install

- 1 npm install karma-cli -g
- 2 npm install grunt-cli -g
- 3

topic - tools installation

command lines

④ Karma - Across Browser testing & watch

API customer - on diff browsers
need testp

②

Jasmine - to make you run testp
but x install globally
locally i.e. inside project
any

Jasmine - is unit testing tool

means to test factory individually
 minification -
 temp files CSS, JS in one file
 with name - call Jasmine -> test runner

unit (Testup)

Test cases

I/p

O/p

Ready Status of test

pub report of
 Jagers

to be attached

if firm need to write how to test

if it will not submit report until complete code for test written

Group of unit test up

as time progresses

how to do -

by uploading - on git - Dev team
